Abstract (Basic):
... A communication unit receives correction information for
correcting reference customer information stored in storage unit
, customer information of specific web service stored in
database . A search unit searches the service that has correctable
information , based on reference information. A corrector corrects
the information of searched service, based on correction information.
International Patent Class (Main): G06F-017/60

INTERNATIONAL PATENT CLASS: G06F-017/60 ...

... G06F-017/30

...SPECIFICATION this by a receiving part 59, reads the customer registration screen data from the customer database 55 based on that registration request data by an updating part 60, and sends the read customer registration screen data from a sending part 61 to the request terminal 52.

When customer information entered on the customer registration screen

...

...52 as customer information data, the data providing server 51 receives this by the receiving part 59, and stores the customer information based on that customer information data as customer registration information by the updating part 60 to register the customer .

Thus, the above customer can use the Internet .

When transmission request data that requests content data is sent from the request terminal 52...

...term of the content data that the customer will buy or rent) to the customer database 55 as additional customer information by the updating part 60 to add that additional customer information to the customer registration information on the customer who requested the content data, and to thereby update the customer registration information.

Thereby, the...receives this by the receiving part 212, reads customer registration screen data from the customer database 210 based on that registration request data by a customer information updating part 215, and sends the above read customer registration screen data from the sending part 214 to the portable dedicated terminal 202 via the Internet 204.

As a result, when customer information entered on the customer

registration screen based on...

Detailed Description
... of
Product2.

0 Business2 Mission Control Desktop - cross
platform administration tools to configure, deploy, centrally
manage , and **update** Business2 Product2.

Business2 A high-performance, scalable **web** server software for
Enterprise Server deploying the largest-scale **web** sites. Business2
Enterprise Server
includes a built-in search engine and supports standard security and...
tools, scheduling tools, help desk tools, etc.. Some Enterprise
Management tools even poll the event/ **data** generators for information
but these options may impact network performance.

Web Server management is been introduced as **part** of the management
operations framework. As Corporate Internets and **Extranets** implement
Web based software products to sell and advertise business services,
corresponding administrative, security, event...

Abstract: Presents a personalized **Web** agent that constructs a user profile which consists of user preferences on the **Web** and recommends his/her specific information to the user. The monitor agent makes the user describe his/her preference directly and creates a preference document **database**, finally it performs several keyword extractions to increase the accuracy about the **DB**. The learning agent transforms the extracted **keywords** into a **user profile** that could be confirmed and **edited** by the **user**. We describe the several keyword weighting and inductive machine learning modules in detail. Finally, we describe the adaptive **Web** retrieval and push agents that perform adaptive service for the user.

Amazon.com revises privacy policy on use of customer data
Byline: Kim S. Nash
Journal: Network World
Publication Date: September 05, 2000

Word Count: 667

Line Count: 61

Text:

Amazon.com Inc. last week posted a new privacy policy on its Web site that's aimed at giving online shoppers a better idea of exactly what happens to the personal information they willingly give...

... e-mail notifications weren't driven by complaints from customers. But they added that the online retailer wanted to clarify where it stood because online data privacy has become such a hot-button issue for e-commerce companies, consumers and...

... customer trust, given the importance that's become attached to protecting the personal information of online shoppers and other users of the Web. "The whole notion of privacy on the Internet has gained currency," she said. One key modification made by Amazon is a promise that

... a chief privacy officer. And under its new rules, the company won't stop collecting personal information. But its revised policy spells out in greater detail what kind of data Amazon gathers from customers and what it will or could do with the information. For example, Amazon made more...

... it obtains consumer profiles from third parties and melds that information with its own customer databases. The company also is now letting customers know that privacy-protection options exist, such as the ability to block Internet cookies or to install software designed to mask or delete the virtual footprints users leave as they visit Web sites. However, Amazon's new policy advises users not to go too far in guarding...

... to the nuggets of personal information left by the company's customers. Gaw advised other online retailers to take similar steps if they haven't already.

TEXT:

...customer has access. If the recording system has multimedia capability, it can record e-mail, **Web** and fax interactions as well, and you can begin to measure the customer's experience...

...across the enterprise, but the recording system will deposit the standard file in the CRM **database**, in the **correct customer file** with specific **customer**, call or request **data**, as a binary **object**. The customer experience is now part of your customer **database**.

Who Will Benefit Besides Customer?

How much more effective does CRM become if multiple ears...
